Upgrade your menu.

Let the good times roll with fun food that's holding serious flavor. It's the new crispy, savory, can't-get-enough-of-it tater.

No small potatoes.

3x the size of your average tater. These taters aren't bite size, they're mouthfuls. They put the more in morsel.

Tater Kegs aren't just a side.

They're whatever you need them to be. A full meal, an appetizer, brunch, a Bloody Mary garnish. These taters have no limits – they've got huge potential.
