PUT THEM ON YOUR MENU TODAY!

Don't compare them to potato chips, French fry's or other apps. Tater Kegs have meat inside with cheese & unique flavors, the fore mentioned they're not. Most guests that try them will want to break out and sing. Like Mary Poppins with the song- These are some of my favorite things. As an upgrade Tater Kegs bring profit galore, and they will set you apart from the competitor's store.
